

Starbond Cyanoacrylate Adhesive - Viscosity 2 - 57g

"STARBOND GLUE" is a pure cyanoacrylate adhesive, non-toxic, non-flammable and water resistant. It dries crystal clear and can be worked very well afterwards. It is offered in FIVE transparent viscosities:

- EM02: Viscosity 2 cp. Very liquid for bonding small cracks, also enters porous woods.
- EM40: Viscosity 40cp. Liquid still enters small fiber cracks, fills slits up to 1 mm.
- EM150: Viscosity 150 cp. Liquid, fills slits up to 1.5 mm
- EM600: Viscosity 600 cp. Thick liquid, fills slits up to 2mm
- EM2000: Viscosity 2000 cp. Thick liquid, fills 2.5 to 5 mm slits

The hardening is done even faster by spraying the glue with the "ACCELERATOR".

Properties

Product code	em022
